

Our Ivy Varieties

Hedera is one of the Top 15 Air Purifying Interior Plants. They are nature's eco-friendly living air purifiers.

Hedera Algeriensis – Gloire de Marengo

Gloire de Marengo ivy is known for its interesting variegation of cream coloured margins and central areas splashed with varying shades of gray on large, leathery, lush foliage that has vigorous trailing and climbing habits. On its own or as an accent, Gloire de Marengo ivy is ideal for use in window boxes, pots, hanging baskets and topiary.

Hedera Maroccana – Spanish Canary

Spanish Canary ivy is known for its majestic dark green, glossy, leathery, large foliage that has vigorous trailing and climbing habits. On its own or as an accent, Spanish Canary ivy is ideal for use in window boxes, pots, hanging baskets and topiary.

Hedera Helix – Pittsburg

Pittsburg ivy is self branching and has vigorous trailing and climbing habits. Its impressive dark green and lush foliage is one of the most attractive varieties of ivy. On its own or as an accent, Pittsburg ivy is ideal for use in window boxes, pots, hanging baskets and topiary.

Hedera Helix – Harold

Harold ivy is an appealing variegated ivy that is self branching and has vigorous trailing and climbing habits. The lush medium size foliage is a variegation of cream white margins and gray green centres. As an accent or on its own, Harold ivy is ideal for use in window boxes, pots, hanging baskets and topiary.

Hedera Helix – Glacier

Glacier ivy, an enchanting variegation of white margins and gray green centres on petite, lush foliage, is self branching and has semi vigorous trailing and climbing habits. On its own or as an accent, Glacier ivy is ideal for use in window boxes, pots, hanging baskets and topiary.

Hedera Helix – Schafer Three

Schafer Three ivy is self branching and has vigorous trailing and climbing habits. Its medium sized foliage is a charming variegation of dark green margins and gray green centres. On its own or as an accent, Schafer Three ivy is ideal for use in window boxes, pots, hanging baskets and topiary.

Muehlenbeckia axillaris – Angel Vine

Also known as Wire Vine and Angel Vine, this delightful plant prefers Sun to Part shade. Aptly named for its twining wiry stems with petite angel like foliage, this plant has vigorous climbing and trailing habits. Angel Vine is ideal for use indoors and outdoors, on its own or as an accent, in window boxes, pots, hanging baskets and topiary.

Dodd's Greenhouses also produces a wide variety of flowering Annual plants in 4" pots and Hanging baskets for the Spring Bedding Season. Please contact us or your distributor for more information.

At Dodd's Greenhouses, our team of dedicated growers takes pride in our work because we are committed to maintaining a high standard of quality in everything we produce. Dodd's ivy topiaries are exclusively "whole" topiaries as opposed to "event" topiaries. The more desirable whole topiaries are produced using a single plant as the foundation of the topiary, which is then trained to the particular shape as it grows. Event topiaries are produced using two or more separate plants to create the shape.

As our customers, we believe that you deserve up to date and exceptional service. You can depend on Dodd's to meet all of your growing needs.
